In most cases you should apply for a firearms licence or for a variation to your current licence. The application for club membership is separate and you will need to provide the following documents:

General Information

How to Obtain a Firearms Licence

You may make an application for a South Australian Firearms Licence at any police station by completing an *Application for a Firearms Licence* (Form PD303) for classes A1, B1 and H1. You will need to present '100 points' of identification.

The Registrar of Firearms, once satisfied that you are a 'fit and proper person' to hold a shooting club member's licence, will issue you with a letter which authorises the club to accept your membership and commence the club Firearm Safety Awareness course. AURRPC has accredited instructors who will conduct the necessary training for members to obtain a Firearms Licence for classes A, B and H endorsed for club use (POU1).

After your training is complete, the Club will issue a instructor/club certificate (Form PD314) which you must forward to Firearms Branch as justification for your firearms licence application.

More detailed information is available from the Club website at <http://aurrpc.org.au> or the SAPOL website at <http://www.police.sa.gov.au>.

Firearms and Ammunition

The *Firearms Act 1977* specifies the types of firearms that may be acquired. An *Application for a Permit to Acquire a Firearm* (Form PD306) must be sent to Firearms Branch for approval. There is a mandatory waiting period of 28 days. The Club must also issue a certificate supporting firearm purchases for club use.

New firearms licence holders are subject to a graduated access to handgun ownership. This is a legislated control that limits the number, type and calibre of handguns a new licence holder can possess and/or own in the first year.

AURRPC has Authorised Officers who are able to witness the transfer of possession of a firearm in accordance with the *Firearms Act 1977*. The firearm must then be registered at a police station within 14 days.

Ammunition may only be purchased by the holder of a firearms licence for a category of firearm that is endorsed on that licence.
